# BIO

## MUSIC AND CREATIVE FREEDOM

AveFeFénix is the personal project of singer and songwriter Félix Díaz — an alternative rock proposal driven by emotional depth, introspection, and a critical edge. His music emerges from personal experiences and an artistic vision rooted in transformation, authenticity, and creative freedom.

With several LPs released on Bandcamp, AveFeFénix has built a distinctive sonic identity defined by profound lyrics, intense atmospheres, and a vocal delivery that is both honest and visceral.

Alongside his solo work, Félix is also the vocalist of the band “Sublocal\_Z”, with whom he has performed in Barcelona and Madrid. He previously formed part of “The Blind Ruffians”, where he took his first steps on stage.

The project combines interactive narrative, immersive sound, and advanced accessibility. AveFeFénix's music adds emotional depth and accompanies key moments of the narrative experience.

The open beta is planned for 2026, and AveFeFénix's music is part of the game's emotional and narrative atmosphere.

# PRESS

## **Vamos.Barcelona**

“Amid dark pulses, emotional distortion, and an aesthetic drawn from the rawest post-punk, the band has become a persistent whisper in Barcelona’s underground scene.”

## **Other Voices**

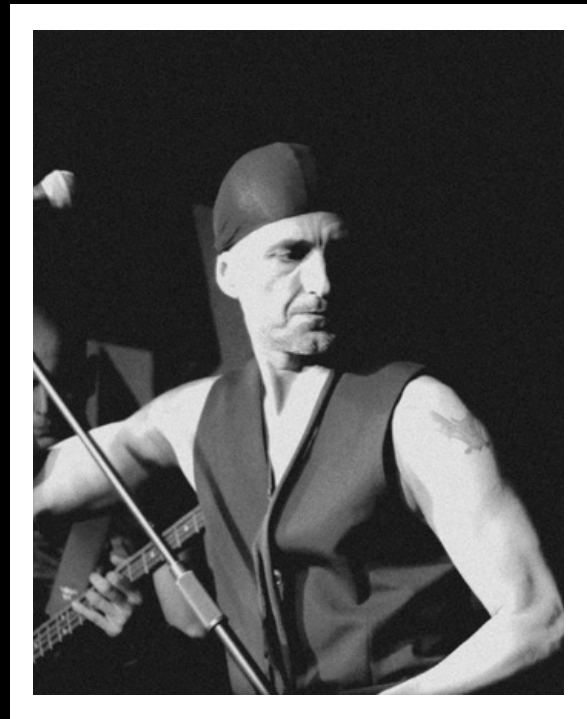

“Félix has something you can’t manufacture: a natural sense of closeness. Down-to-earth, unpretentious, speaking to the audience as if he were at home. And in a small venue like Slow, that works even better. There was presence.”
